

**3M™ SLiC 530/533/733-2 Port 0.61  
Cable Entry Bracket**

**3M™ SLiC 530/533/733-2 Port-MSM 0.61  
Cable Entry Bracket**

For use with 3M™ SLiC™ Free-Breathing Fiber Optic  
Closures and Terminals

**Instructions**

# 1.0 Kit Contents

**Note: Visually inspect all components. If any component is missing or appears damaged, do not install. Call 3M customer service at 1-800-426-8688 for a replacement product.**

- 1.1 Kit Contents SLiC 530/533/733-2 Port 0.61 Cable Entry Bracket 80-6113-2344-7
  - A. Cable Addition Bracket Assembly (1)
  - B. Cap
  - C. Multi-port Grommet (1)
  - D. Hose Clamp (1)
  - E. Pair Saver
  - F. 3M™ Scotchlok™ Shield Bond Connector 4460 with LSM Clamp (2)
  - G. 10-32 UNF Flange Nut (2)
  - H. Lubricant (1)
  - I. Instruction Manual 78-0013-2695-4 (Not Shown)

- 1.2 Kit Contents SLiC 530/533/733-2 Port-MSM 0.61 Cable Entry Bracket 80-6113-8403-5
  - A. Cable Addition Bracket Assembly (1)
  - B. Cap
  - C. Multi-port Grommet (1)
  - D. Hose Clamp (1)
  - E. Pair Saver
  - F. 3M™ Scotchlok™ Shield Bond Connector 4460 with LSM Clamp (2)
  - G. 10-32 UNF Flange Nut (2)
  - H. Lubricant (1)
  - I. Instruction Manual 78-8128-0289-6 (Not Shown)

# 2.0 Cable Preparations

- 2.1 Per company practice, remove sufficient cable jacketing to allow for slack storage and splicing needs (approximately 5 feet).
- 2.2 Trim central strength members on both cables approximately 3" (76 mm) from the end of the cable jacket.

**Note: When using ribbon fiber cable, leave a minimum of 2" (50 mm) of central tube.**

- 2.3 Insert cables into the multi-port grommet so that 1.25" to 1.75" (32–45 mm) of cable jacketing is exposed past the inside edge of the grommet.

**Note: A small amount of lubricant provided in the kit may be placed on the leading edge of the cable to ease installation into the grommet.**

**Note: Place and tighten a cable tie around the grommet or you may also place a couple of wraps of Scotch® Linerless Rubber Splicing Tape 130C around cable to provide a better seal.**

**Note: Carefully follow safety, health and environmental information given on product label or the Materials Safety Data Sheet for the lubricant.**

### 3.0 Cable Addition Bracket Assembly Installation

- 3.1 Remove screw on the 3M™ Scotchlok™ Shield Bond Connector 4464 and swing the plate to the side. If the shield connector is installed with rivets, do not perform this step.
- 3.2 Remove central strength member retainer. Unscrew and remove the central strength member retainer that is intended for use. If installed using rivets, do not perform this step.

- 3.3 Loosen the second screw just enough to allow the cable addition bracket to slide under the CSM retainer. Replace the screw that was removed previously and tighten the shield bond connector tightening fastener between 25 to 30 in.-lbs. (2.9 to 3.5 kgf-m).

## 4.0 Grommet Assembly Installation using the 3M™ Scotchlok™ 4460-D/FO-CSM For LBT

- 4.1 Please refer to instruction manual 78-0013-2695-4 3M Scotchlok Shield Bond Connector Assembly 4460-D/FO-CSM for LBT for installation instructions.
- 4.2 Assembly is now ready to place in the end seal of the closure or terminal. Refer to instruction manual document number 78-8135-4502-3 for end seal installation.

## 5.0 Grommet Assembly Installation using the 3M™ Scotchlok™ Shield Bond Connector 4460-D/FO

- 5.1 Please refer to instruction 78-8128-0289-6 3M Scotchlok Shield Bond Connector Assembly 4460-D/FO and 4460-D/FO-SS for installation instructions.

## 6.0 Installation into Closure or Terminal

- 6.1 Assembly is now ready to place in the end seal of the closure or terminal. Refer to instruction manual number 78-8135-4502-3 for end seal installation.
- 6.2 Place cable and grommet assembly onto cable addition bracket such that the retention tab slips between the two cables as shown.

***Note Place the grommet and cable assembly such that a minimum of 0.78" (19.8 mm) of cable jacket extends past the hose clamp.***

- 6.3 Using the supplied hose clamp, secure cables to the cable addition bracket and cable management tray frame as shown. Tighten hose clamp between 25 to 30 in.-lbs. (2.9 to 3.5 kgf-m).
- 6.4 If a single cable entry is also employed through second endseal port, please refer to instruction manual number 78-8135-4502-3 for cable installation section 4.0.
